Curriculum Vitae - Arjun R

Academic and Engineering Profile | B.Tech Artificial Intelligence

---

ARJUN R - AI Developer | Research Engineer | Software Developer
Location: Chennai, India | Email: arjunr3773@gmail.com | Phone: +91 63859 20987
Education: B.Tech in Artificial Intelligence, SRM Institute of Science and Technology (2023-2027), CGPA: 8.13/10

SUMMARY:
Artificial Intelligence undergraduate with engineering internship experience and applied machine learning research. Focused on fairness-aware ML, multi-agent systems, Generative AI, RAG, and backend software engineering.

RESEARCH CONTRIBUTIONS:
- Bias-Free AI-Driven Placement Automation Using Rule-Augmented Machine Learning (ICISC 2026)
  Demographic parity disparity reduced from 17.9% to 2.3% with 92.8% hiring classification accuracy.
  Evaluated across 1,200 candidate records and 50 corporate recruiting profiles.

ENGINEERING INTERNSHIPS:
- KNS Law Chambers (Software Developer Intern, Jan 2025 - Dec 2025)
  * Built agentic property intelligence system indexing multi-bank auction records and flagging ownership conflicts.
  * Developed internal compliance auditing platform with structured verification check gates.
- Grand Magnum Housing Pvt. Ltd. (Software Developer Intern, Jun 2025 - Aug 2025)
  * Developed executive operations dashboard to monitor cross-department activities and task escalation.

TECHNICAL PROJECTS:
- Resilient Multi-Agent Energy Management System (FastAPI, Pandapower, Gymnasium, RAG, LLM Copilot)
- CONTRA: Adversarial Multi-Agent Research Engine (FastAPI, Gemini, Next.js, Pydantic, RAG)
- Sine2Times: Diagnostic Mathematics Tutor (FastAPI, React, SymPy, Bayesian Knowledge Tracing)

TECHNICAL SKILLS:
Languages: Python, Java, C, C++, SQL | ML/AI: Generative AI, LLMs, RAG, Multi-Agent Systems, Scikit-learn, PyTorch
Frameworks: FastAPI, React, Next.js, Pandapower, SymPy | Fundamentals: Algorithms, DBMS, OOP, OS

Note: Full formal CV document placeholder. Replace with your camera-ready PDF file.
